Mr. Linden commented on the public policy documents. Regarding the asbestos, it is a true statement and wondered whether it was relevant.

Mr. Linden commented on the proposed new building stating there hasn't been much discussion regarding the junior high. The proposed new building would be 62,000 square feet which is a 38% increase over the old building. He cited examples of the wasted space at the new Village Hall and the Glenwoodie Clubhouse. He wondered if the new school is going too far.

Mr. Linden stated that he likes that the proposed new building is two stories because it is economical. He feels it is an excellent time to build with low interest rates and he would like to see something new.
